DIGIPRESS ULTRA

Digital Manifold

Product informations

DigiPress ULTRA is the innovative 2-way intelligent digital manifold in a sturdy and convenient case equipped with a 4" touchscreen LCD display and Bluetooth® technology; thanks to this manifold it is possible to view the pressure, vacuum, and temperature values in real time; furthermore, it automatically calculates the superheating and subcooling values. Inside there is also a vacuum sensor with an accuracy of up to 1 micron. The device also offers the possibility of recording data and adding additional features such as temperature timers, leak tests and alarms. Finally, through the simple and free APP, it is possible to see the test results on all compatible portable devices!

A SINGLE DEVICE TO CORRECTLY DIAGNOSE AND REPAIR A/C SYSTEMS!
