

## REMOTE GAS LEAK DETECTOR

Model RMP S

### Product informations

**RMP**, the remote detector that can be used in both civil and industrial environments, powered directly by the CRD control unit with the catalytic EMS sensor module inside.

### Product features

- used for the detection of explosive gases
- can be connected to any 4-20mA control panel
- its installation position depends on the type of gas to be detected (methane 30 cm from the ceiling, LPG 30 cm from the ground)

### Technical Features

<b>GAS DETECTED</b>	<ul style="list-style-type: none"><li>• CH<sub>4</sub> - SKU 504140</li><li>• LPG - SKU 504150</li></ul>
<b>POWER SUPPLY</b>	12 - 24 VDC
<b>ALARM LEVELS</b>	6% LIE / 10% LIE
<b>OUTPUT SIGNAL</b>	12 MA / 20MA
<b>VISUAL INDICATION</b>	LED
<b>OPERATING TEMPERATURE</b>	- 20°C ÷ + 50°C
<b>SENSOR LIFE</b>	5 YEARS

## Remote Gas Leak Detector

<b>MATERIAL</b>	ABS
<b>DEGREE OF PROTECTION</b>	IP65 (PROTECTED AGAINST JETS OF WATER PUMPED FROM ANY DIRECTION AND COMPLETELY HERMETIC AGAINST DUST AND FUMES)
<b>CONFORMITY</b>	CE
