

## T-TOTALFLEX

Plastic polymer flue system

### Product informations

**T-TotalFlex** is the flue gas exhaust system in completely flexible plastic polymer, without solution of continuity; in fact, the system provides a single and unique joint sleeve with which it is possible to manage three different combinations: rigid-flex, flex-flex and flex-rigid. Ideal for evacuating fumes from the combustion of condensing boilers and kitchen vapors, it must always be placed in a technical cavity/technical loop or inside the thermal power plant.

### Product features

- made in diameters: Ø 50 mm - Ø 60 mm - Ø 80 mm
- composed of modular elements with circular section
- matt white finish RAL 9010
- each roll is equipped with 6 gaskets
- all corrugated, without pre-finishing

### Technical Features

<b>DESIGNATION</b>	T 120 H1 W 2 O00 LI E U0
<b>TYPE OF MATERIAL</b>	SELF-EXTINGUISHING PPS
<b>RESISTANCE TO PRESSURE</b>	WITH EPDM GASKETS

**T-TotalFlex**

<b>APPLICATION RANGE</b>	CONDENSING BOILERS AND COOKING STEAM EXHAUST
<b>SUITABLE FUELS</b>	METHANE GAS
<b>OPERATING TEMPERATURE</b>	CONTINUOUS UP TO 120°C WET UNDER PRESSURE WITH EPDM GASKET
<b>REACTION TO FIRE</b>	CLASS "E" (ACCORDING TO EN 13501-1)
<b>THICKNESS</b>	1,5 MM
<b>DEGREE OF RESISTANCE TO CORROSION</b>	TYPE 2

<b>SKU</b>	<b>D</b>	<b>ROLL LENGTH</b>
51421	Ø 50 MM	30 M
51422	Ø 60 MM	30 M
51423	Ø 80 MM	30 M

<b>SKU</b>	<b>MODEL</b>	<b>PRICE</b>
00000051421	FLEXIBLE PIPE - Ø 50 MM - 30 M	€234.6 VAT EXCLUDED
00000051422	FLEXIBLE PIPE - Ø 60 MM - 30 M	€235.9 VAT EXCLUDED
00000051423	FLEXIBLE PIPE - Ø 80 MM - 30 M	€243.65 VAT EXCLUDED
