TECNOBREEZE FROZEN WIND

Air curtain

Product informations

TECNOBREEZE FROZEN WIND, the air curtain suitable for refrigerated storage environments, entrances to industrial environments or garages. Light, functional, easy to clean and maintain; the air speed is high and the motor is quiet and highly efficient. The air barrier allows to maintain a constant temperature inside the environment, also avoiding the entry of contaminated air flows from the outside. Its moving electrical parts are guaranteed for operation over 5000 hours.

Product features

- super thin stainless steel body, corrosion resistant and powder coated
- square design
- cross type air flow
