

TECNOBREEZE HOT WIND

Air curtain

Product informations

TECNOBREEZE HOT WIND, the linear and compact air curtain, is a high-end product that finds its greatest application in commercial environments; it allows to maintain a constant temperature inside the environment, also avoiding the entry of cold or contaminated air flows from the outside. Its moving electrical parts are guaranteed for operation over 5000 hours.

Product features

- PTC heater that creates air curtains at different temperatures, which effectively prevent cold air flow and ensure a comfortable temperature
- metal and aluminum cover
- delayed shutdown protection device (3 minutes), which activates automatically when using "HEAT" mode, efficiently extending the life of the product
- moving electrical parts guaranteed for operation over 5000 hours
- complete with remote control, with power adjustment and electrical resistance
- maximum height above ground: 3 m
