

MINI ANEMOMETER

Model with fixed probe

Product informations

Mini anemometer with fixed fan probe, designed to easily measure temperature, flow rate and air speed.

Product features

- wear-resistant fan structure for greater precision and reliability
- data block function
- MAX/AVG mode
- backlit LCD screen
- automatic shut-down
- overload indication
- low battery indication

The kit consists of

- mini anemometer
- 3 AAA batteries (R03) 1.5V
