WHITE DUCT

Model ART-ECO

Product informations

ART-ECO, the roll-up duct with full coverage and snap closure system in the base, is practical and ideal for covering all type of pipes, footprints or dirt formed during the installation of the air conditioner.

Product features

- assembly is carried out by means of expansion plugs, using the holes provided on the base
- the pipes are retained at the base by means of special quick-connect clamping brackets, which can be removed by slightly spreading the walls

Technical Features

MATERIAL	SHOCKPROOF AND SELF-EXTINGUISHING RIGID PVC STABILISED AGAINST UV RADIATION AND LEAD-FREE, AS REQUIRED BY ROHS NORMATIVE
COLOUR	RAL 9001
